

Yes, You Can Refinish Furniture at Our Expense

We want to prove to you how easily you can make an old piece of furniture new.

Here is what we give: A bottle of Johnson's Electric Solvo to instantly remove the old finish. A bottle of Johnson's Wood Dye to beautifully color the wood. A package of Johnson's Prepared Wax to impart that rich, dim lustre—to protect the finish against heel marks and scratches.

Johnson's Wood Dye

Is not a mere stain—not simply a surface dressing. It is a real, deep-seated dye, that goes to the very heart of the wood—and stays there—fixing a rich and permanent color.

Johnson's Wood Dye is made in 14 standard shades, every one of which you may have in the tree samples.

Let them demonstrate what Johnson's Materials will do in your home.

MAY NOT FILL VACANT OFFICE

Council May Defer Action on New Appointment

The Red Jacket council probably will hold its regular November meeting Monday evening, Nov. 5, instead of the first Tuesday evening in November, because the latter date is Election day, a legal holiday.

One of the most important questions to come up is that of whether or not the council should fill the vacancy caused by the resignation of Oscar Koekonen from the board. It is possible that it will be decided to leave the office vacant until spring and let the electors of the village select Mr. Koekonen's successor. There is no pressing business to come up between now and spring that is known and although the efficiency of the board might be impaired with one member missing, such action is not without precedent.

It now appears that Mr. Koekonen's resignation was tendered so that he might have a free hand in bidding for the village property recently disposed of at auction and if this is the case, Mr. Koekonen might be prevailed upon to resume his seat on the council. If it is decided to make an appointment now, Mr. Koekonen was one of the most experienced and valuable of the council members, being thoroughly familiar with the village affairs and its greatest needs and a tireless worker. At its coming meeting the council may take action on the matter of building a storage shed for the village equipment, on the lot recently purchased from the C. & H. Mining company on Seventh street.

NEW CHOIR TO SING.

Prof. August Espel's new male choir has consented to assist at the lecture to be given at the Calumet theater Sunday afternoon by David Goldstein of New York. The choir will render several selections and the Sacred Heart boys' orchestra will also be present and assist. It is expected the lecture and the musical program will be of great merit.

TO GET FULL EQUIPMENT.

The members of Co. A. Engineers have been advised that they will shortly receive the full minimum equipment for one engineering company. The company has been somewhat handicapped of late by reason of the fact that its equipment was not complete and it is expected better work will result when the full equipment is secured.

Marcus Pollosky claims to have a company capitalized at \$15,000,000 ready to construct subways in Chicago.

TRAIN DISPERSES DEER.

As the Keweenaw Central train approached Manda on Monday afternoon, a herd of five deer was dispersed. Engineer Cocking noticed the deer long before the train reached them and sounded the whistle of the engine to attract the passengers' attention. All had a fine view of three animals. On their return, a large number of luckless hunters boarded the train at Central only a few miles away and were greatly surprised when the passengers told them of their recent experience.

EVADES MOST VITAL ISSUE

Continued From Page One.

"What keeps up the high cost of living?" Watkins asked. "Is it the farmer who produces the crop? No! Is it the groceryman who sells the produce? No! It is the middlemen who make the cost of living high. And its the political bosses who are the middlemen of politics. They keep the cost of politics high."

"The Progressive platform has been stolen," admitted Mr. Watkins. "We have taken the best out of the Republican platform, the best out of the Democratic platform, the best out of the Socialist platform, and the best out of William Jennings Bryan's platform, and have even taken some of the ten commandments. We have done even more. We have gone into human hearts and have touched the heart-strings. We have gone out among the workers, the men and women without luxuries that some people have and we have taken their platform."

Watkins promised that he would make the same kind of a governor as he has made a senator, and would in every manner endeavor to fulfill his obligation to the people. He would endeavor to provide a just government for men and women.

"If I don't get a single vote up here, I will be just as much your governor as if I got all of the votes."

Mr. Watkins closed his address with an earnest plea for W. J. MacDonald, candidate for Congress. He charged that H. Olin Young, the present congressman from this district was a representative of special interests and that Roosevelt would need such men as MacDonald to help him if elected. W. E. Jones, who gave the last address of the evening, urged the voters to support the whole ticket and made a special plea for Watkins.

WOULD PREVENT COPPER THEFTS

Cases For Receiving Stolen Goods are Adjourned

Justice Fisher's court room was the scene of an interesting exhibit of copper samples and specimens this morning, a box containing from 200 to 300 pounds, principally conglomerate mass copper, having been entered as evidence in the case of the People vs. Isaac Bletcher, complaint having been issued on the charge of receiving stolen goods, which he knew to have been stolen, valued in excess of \$40. It is claimed that additional copper taken from anydoidal shafts to the extent of about 225 pounds has also been confiscated and will be entered as evidence. Bletcher was represented at his hearing this morning by Attorney E. A. McCormick and after considerable testimony was introduced, an adjournment was taken for one week to allow for the transcribing of the testimony.

The trial of Ebal Sharpe, also charged with receiving stolen copper, known to have been stolen, valued at less than \$25 has been set for Nov. 11. Attorney E. A. McNally will appear for Sharpe.

Although the charges are similar, the cases are to be given separate trials, the charge against Sharpe coming within the jurisdiction of the justice court because the amount involved is less than \$25, while that against Bletcher must be tried in circuit court if the evidence is found sufficient to warrant holding him.

The arrests are on complaint of Special Officer August Beck, and are the result of a campaign by the C. & H. officials to prevent thefts of copper.

CHOOSE LECTURE TOPIC.

Patrons of Y. M. C. A. Lyceum Course to Hear Long Oct. 31.

The patrons of the Calumet Y. M. C. A. Lyceum course will be given an opportunity to help choose the subject of the lecture to be delivered by Sylvester A. Long at the Calumet theater next Thursday evening, the opening number of this year's course. Mr. Long has several popular themes among which are the following: "Drop In," the lecture in which he made his first big hit; "Napoleon, the Man of Destiny," said to be one of his strongest; "Lightning and Tootlicks," in which he has achieved his greatest success; and "Hungry People," his newest lecture, and one which is fully as popular as the others. There has already been some demand for the lecture, "Hungry People," but the local course management desires to give everyone a chance to express himself and would welcome suggestions.

W. J. WEBB IS IN TOWN.

William J. Webb, formerly of this city, who was at one time engaged in the insurance business with M. E. O'Brien, in Laurium, is visiting here. In August of this year Mr. Webb came to Detroit from his ranch in Idaho and joined M. E. O'Brien, president and general manager of the Detroit Life insurance company. Mr. Webb's official position in the Detroit Life, is assistant to Mr. O'Brien.

week moving their household effects to Houghton, where a beautiful residence has been erected. Mr. and Mrs. Gaul are among the pioneers of copperdom.
